LIBRARIAN'S REPORT

Chesterfield, N. H.

To the Trustees of the Chesterfield Library:

The annual report is herewith presented:

For the year of 1948 the total circulation of the Chesterfield library was 5,295 volumes. The main building loaned 4,501, Spofford branch, Mrs. Pauline Record, librarian, 594 and West Chesterfield, Mrs. Lina Amidon, librarian, 200. This total includes the ones sent to the schools in West Chesterfield and Spofford from the main building.

There were not as many new books purchased in 1948 due partly to the fact that with the changing of librarians in September, there were so many other things to check on first that by the time the new librarian got to book buying, the year was about up. Of the 69 purchased, 13 were bought by me in December.

Books donated to the library this past year were by Mrs. Wm. Nurse, Mrs. Frank Dean and Lydia Farrington.

A great amount of assistance has been given by some of the junior members of the library and this has been very much appreciated. I feel especially indebted to the following, for their help, Jill Bradley, Cynthia Houghton, Nancy Parker, Mildred Nurse, John Dean and John Nurse.

There are many people in Chesterfield both new residents and old who have never been in the library. I am sure they have no idea how lovely the building is, and what a wonderful selection of books can be found on the shelves. I wish they would come in and see how fortunate they are to have such a splendid building in so small a village. It is officially open on Wednesdays from 2-5 and 7-9.

Respectfully submitted,

JESSIE B. FARRINGTON,

Librarian.

REPORT OF HEALTH OFFICER

During the past year one complaint on sanitary conditions at the lake has been received. This was taken care of satisfactorily.

Improper disposal of dead domestic animals is a serious offense and one or two such cases have been called to my attention. A more rigid enforcement of the health laws in such cases may be expected in the future.

Only one case of measles has been reported this past year. Please report all communicable diseases to me. Tel. West Chesterfield 716-W5.

Many samples of water have been sent to Concord for analysis

Twelve milk licenses were issued to buy and sell milk and cream at two dollars each as follows: W. H. Richardson, Tuttle's Store, Paul Penning's Store, John N. Ball's Store, Harry Nosek, Ware's Grove, Charles Rudolph, Brook Haven, Wheeler & Taylor, The Maples Farm, Hillside Dairy, MacKenzie Dairy. Twenty licenses for the sale of milk and cream were issued.

Inspections were made and licenses approved on three boarding homes for children.

Frank Whorfe has been of great assistance to the health officer, especially at the lake and town dump.

Respectfully submitted,
AGNES B. CHICKERING,
Health Officer.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Chesterfield:

I herein submit my fifth annual report as Superintendent of Schools.

The expanding role of public education and the impending growth of the school population, as revealed by the pre-school census, emphasizes the immediate need for further action on the new consolidated school as authorized at the last special meeting of the school district. Further delay in this project will increase that chasm between "the schools we have" and "the kind of school we have said we want." The losses attributable to educational inefficiency are seriously affecting our greatest resource—the enlightened citizenry of the future.

GUIDANCE

Standardized achievement, intelligence, and vocational preference tests were completed during the school year. A summary of the physical examinations is submitted herewith by the school nurse. The combined results of these tests indicate the areas for remedial work and provision for special abilities. The benefits of visual education projects and improved textbooks are reflected in better scholarship and improved discipline.

A more effective health program including physical education, medical examinations, a more adequate school lunch program, and better physical conditions in the schools are needed. Provision should also be made for more work in the fine arts and manual skills. The facilities for these essentials of an enriched program will undoubtedly be included in the new school building.

CONCLUSION

I wish to thank the members of the School Board, teachers, other school employees, parents and citizens for their cooperation and services to the Chesterfield School District.

Respectfully submitted,
JOHN H. FRYE,
Superintendent of Schools.

***Report Made to June 23rd Adjourned School Meeting**

On May 19th, 1948, the voters of the School District of the Town of Chesterfield voted to build and equip a new central school including six classrooms, an assembly room and the other facilities for a modern school on the Chesterfield Common site. At the same time, the voters authorized the School Board to execute all necessary con-

tracts and agreements and to hire architects for said school. It was also voted to appropriate and use the \$13,-400 Ralph Mulligan Fund and the \$3,000 Capital Reserve Fund established in March 1948 to finance, in part, the building and equipping of this new central school. However, the District did not vote by a two-thirds majority to raise and appropriate the bond issue to build the school.

Under advice of legal counsel, it was deemed advisable to adjourn the May 19th meeting to this evening for the following reasons:

1. To make certain that all articles as voted May 19th were legally sound for the future bonding of the district.

2. To determine the possibility of acquiring the Mulligan Fund for preliminary steps in building, such as hiring architects, buying land, etc.

To determine how much could be accomplished without the vote for the bond issue.

1. All the articles passed were completely in accordance with the law. Incidentally, this is the first town in the State of New Hampshire which does not have to hold another meeting in order to comply with some legal technicality overlooked in the preliminary planning and your Investigating Committee is rather proud of it.

2. The School Board has found that neither the Mulligan money nor the Capital Reserve Fund is available until the District votes the money to build the school.

3. In view of the fact that no money is available, the Building Committee can take no action of an effective nature. The School Board is authorized to accept gifts for the central school which may someday be built on the Chesterfield Common. That is all that can be done.

After considering all the facts, the Investigating Committee makes the following recommendations:

1. That no further action be taken at this time.

2. That the bond issue be brought before the District again at the March 1949 meeting.

3. That the School District ask the Selectmen to include an article in the warrant for the Town Meeting to transfer that portion of the Common south of Jackson Hill Road to the School District for the new central school.

4. That the Building Committee make plans to solicit gifts and campaign to convince the rest of the Town that they cannot afford not to build a modern school for the best education of the children of the Town of Chesterfield.

REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground it not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

F. J. BAKER,
District Fire Chief.

1948 FIRE RECORD
